Result: Infinite spin spawning bug on load
Expected: Loading spinner should disappear and content should render
Actual: Spinner rotates indefinitely, page never becomes interactive
Environment: Chrome 120.0.6099.109, macOS 14.2.1, Intel Core i7, 16 GB RAM
Steps to reproduce:
1. Open DevTools → Network → throttle to "Slow 3G"
2. Navigate to https://example.com/dashboard
3. Observe spinner behavior
4. Switch throttling to "No throttling" and reload
Workaround: Clear site data (Application → Storage → Clear site data) and reload
Regression: Not present in Chrome 119.0.6045.199
Console errors: TypeError: Cannot read properties of undefined (reading 'map') at DashboardWidget.render (dashboard.bundle.js:4821:17)
